CHANDLER
GLASS & PACKAGING

BOTTLES / BOTTLE CUSTOMISATION / VCAPS / CARTONS / PARTITIONS

LET'S GET PERSONAL!

Create a personalised bottle with Chandler and craft an asset that helps your brand stand out from the crowd!

From an embossed or debossed logo to a completely unique design and shape, Chandler is here to help guide you through the process.

BOTTLE CUSTOMISATION WITHIN EASY REACH

CHANDLER GLASS & PACKAGING PRODUCT RANGE

BOTTLES

We specialise in providing a competitively priced range of extra-light, mid to heavyweight premium BVS wine bottles. Additionally, we offer a comprehensive suite of services including:–

- Permanent decorations applied at the source, such as ceramic screen printing and foil decals
- Shoulder or body embossing, debossing of logos and patterns
- Bespoke bottle shapes and unique bottle design
- Premium and super premium (heavy) cork mouth wine bottles
- Bottles that are no longer readily available, including many cork mouth models that may have been phased out.

DECORATED VCAPS

We are able to provide all standard cap lengths and diameters, but our company focus and expertise is on 30H60 caps used for the sealing of premium wines. The top & side decoration possibilities are invigorating design innovation. They include:–

- Foil tipped top-embossing
- Fixed position top-embossing
- Side-emboss with the option to side-shave of the raised tips
- Distortion printed flat sheet for direct punch techniques
- Top & side: Screen printing / Off-set printing
- Top Litho printing CMYK
- Registered print application of 2x side screen print with 2x hot-foil decorations.

CUSTOMISED CARTONS

When you seek the extraordinary, our cartons will fit the bill. Our standard corrugate has a strength advantage over most. We specialise in providing:–

- Perfect register & reproduction of detailed graphic art files
- Highly decorated cartons that require Litho-print on coated and uncoated liners
- Large run pre-printed (roto-gravure) on coated and uncoated liners
- Hot-foil decorations
- Lay-down cartons for 6 & 12 bottles – double walled (5 layer paper)
- Hi-LPI-Flexo print
- Export grade B-Flute corrugate (USA & Canada)
- Single & double carry packs – and gift boxes.

PARTITIONS

Whether they are called sections, partitions, dividers – they are used to separating bottles in 6 or 12 pack cartons. Chandler has developed an assortment of partitions from a selection of cardboard materials. These include:–

- B-Flute corrugate 6 & 12 packs at H170mm
- B-Flute corrugate 12 at H298mm
- C-Flute made to order
- Intergard (Grey Card) 6 & 12 packs
- Lay-down moulded trays for 6 bottles.

CHANDLER GLASS & PACKAGING

Chandler Glass & Packaging (Chandler), established in 2007, specialises in coordinating and quality-controlling the supply of packaging solutions to wine producers. We provide standard & personalised wine bottles, decorated Vcap screwcaps, customised cartons, and an array of bottle partitions. Our services extend to wine producers in the United States and Australia.

Chandler's principal aim is to provide winemakers and wine marketers with a broader range of choices and enhanced dependable quality. As a dynamic enterprise, we pride ourselves on our resourcefulness and agility, consistently adapting to the evolving landscape of wine branding by offering innovative packaging solutions that challenge traditional bottling norms.

We are committed to delivering exemplary service and competitive pricing to our clients, ensuring bottle performance and visual quality are never compromised.

Chandler coordinates the production and supply of over 100 million wine bottles annually for wine producers across three markets and holds the position of the second-largest supplier of bottles and 30 x 60 screwcaps to New Zealand producers.

In our initial years of operation, we developed an extensive range of moulds for BVS, sparkling, and cork mouth bottles of varying weights and forms. Our focus extends beyond aesthetic and cosmetic considerations to include the stringent controls necessary to achieve a high-performing BVS mouth finish and flat label-panels. Through these efforts, we have contributed to raising the general standard of wine bottles in New Zealand and have elevated the quality and performance expectations of bottlers for essential dry goods.

WHAT CHANDLER DOES:

At Chandler, our dedicated team of online quality control personnel operates 24/7, meticulously monitoring output across every production line at our manufacturers' facilities. By rigorously measuring and inspecting production against established quality control parameters before packaging, we ensure that only conforming bottles are shipped to you.

Simultaneously, our experienced New Zealand-based team works closely with your planning personnel to guarantee timely and complete delivery of your required dry-goods.

For all your wine packaging needs, please contact us.

Sincerely, **The Chandler Team.**

THE ART OF THE CAP

MAKE A MARK. LEAVE AN IMPRESSION.

AN ENDING WITH A TWIST

Twelve years ago Chandler's branded Vcap 30H60 closures launched with premium quality wines in mind. Vcap opened up decoration possibilities that were not previously available to New Zealand wine producers.

We specialise in all colours & effects for 30x60mm caps.

It was a proud moment when Vcap become New Zealand's second largest wine screwcaps supplier in its seventh year.

Fixed position top-emboss, registered behind top printed decoration.

Hot-foil tipped top embossing.

Tip-printed top embossing on matching matte top and skirt colour.

Skirt embossed of bold decoration elements.

Skirt embossed tip-shaved to expose alloy.

Screen printed decoration on matching matte top and skirt colour.

Detailed Hot-foil skirt decorations.

Skirt off-set printed decoration on metallic side base-coat.

DIVIDED & CONQUERED

Chandler has become one of New Zealand's preferred suppliers of 6 bottle corrugated cardboard Fold-up dividers, 6 & 12 bottle Inter-laced partitions – as well as cost effective Intergard (grey card), stitched 6 & 12 bottle partitions.

FOLD-UP DIVIDERS

B-Flute corrugate Fold-up partitions with notched locking device for flaps and universal design for most 750ml wine bottle diameters.

Bottles: 6

Thickness: 2.5mm

Heights: 210mm

INTER-LACED DIVIDERS

B-Flute corrugate inter-laced partition sections with notch-cut ends. Universal design with lateral movement to suit all 750ml wine bottle diameters. The 170mm height is cost effective solution for Burgundy & Riesling bottles. The 210mm height is for long bodied Bordeaux style bottles.

Bottles: 6 & 12

Thickness: 2.5mm

Heights: 170mm / 210mm

INTER-LACED DIVIDERS

B-Flute corrugate inter-laced partition sections – North American EXPORT height. Universal design with lateral movement to suit all 750ml wine bottle diameters.

Bottles: 6 & 12

Thickness: 2.5mm

Heights: 298mm

INTERGARD (GREY CARD) DIVIDERS

Intergard (350gsm grey-card) threaded partition. Universal design with lateral movement to suit most 750ml wine bottle diameters. This thin material provides glass separation only – no cushioning effect.

Bottles: 6 & 12

Thickness: 0.9mm

Heights: 160mm / 210mm / 297mm
